Gila County Supervisor Woody Cline and Pat Walker Consulting to present findings for Financial Analysis
Supervisor Cline told the council that at a previous meeting he had told them that Gila County wanted to help the town’s financial situation; to make sure that nothing was missing. They hired Pat Walker Consulting to work with Financial Director Teresa Williams double checking numbers. Supervisor Cline read the Financial Analysis from the Documentation Review. He told the council that he was surprised when he seen the amount of the Assessed Valuation for next fiscal year. It was increased from 7 million to 22 million. He told the council that as the report states this will give the town an extended period, but the town needs to continue to make changes. Vice-Mayor Smith mentioned this fluctuation in the Assessed Valuation has been going on since 2012 and no one can give the town answers as to why it fluctuates so much every year. Mayor Hetrick mentioned that maybe it helped when they met with the legislatures. Supervisor Cline told the council that he would be willing to continue attending legislature meetings with the mayor and vice-mayor. Supervisor Cline mentioned that Finance Director Williams can probably work on a five- year plan for the town. He also told the council that he wanted to thank Finance Director Williams for all the help in getting information for this report. General Superintendent Cruz asked Supervisor Cline if the county can give additional help for example help with removing sewer sludge. Supervisor Cline said he would look into it but asked General Superintendent Cruz to contact Gila County Public Works Director and maybe he will be able to help.
